Core

Vision:

To be a world class Quality, Occupational Health, Safety and Environmental Consultancy firm.

Mission:

To provide world class Quality, Occupational Health, Safety & Environmental services to our Clients.

Core Values:

*Safety *Professionalism *Passion for Excellence
*Integrity *Leadership at all Levels

...good safety systems = good business

RHOLUCK SERVICES NIGERIA LTD. was incorporated under the provision of the Companies and Allied Matters Decree (1990) in Nigeria on the 6th August, 2010. RHOLUCK SERVICES NIGERIA LTD. is an indigenous firm involved in Occupational Health, Environmental and Quality training, manpower development consultancy and environmental protection services. We are a team of Health, Safety, Environmental and Quality Management Professionals. We are members of the American Society of Safety Engineers (ASSE), Institute of Safety Professionals of Nigeria (ISPON), Institute of Chartered Chemists of Nigeria (ICCON), Chemical Society of Nigeria (CSN), Association of First Aiders (AoFA) – UK

We are accredited Environmental Consultant for the preparation of Environmental impact Assessment (EIA), Environmental Assessment (EA), and Environmental Auditing and Report (EAR) of companies and Health, Safety and Environment (HSE) Training by Government Agency (LASEPA), Ogun State Environmental Protection Agency (OGEPA), Federal Ministry of Environment, Abuja, National Environmental Standard and Regulations Enforcement Agency (NESREA), National Oil Spill Detection and Response Agency (NOSDRA), Department of Petroleum Resources (DPR), Nigerian Petroleum Exchange (NIPEX), Centre for Management Development (CMD) and Oil and Gas Trainers Association of Nigeria (OGTAN).

COMPANY POLICY STATEMENT

RHOLUCK SERVICES is a name synonymous with high quality services; strategically positioned to deliver high quality environmental consultancy services, facility environmental auditing and safety trainings. Customer satisfaction is our value. The joy of our clients is our pride and we shall do the needful to ensure our clients work environment-friendly through our proven and tested Environmental Protection Management System (EPMS)

MANAGEMENT OBJECTIVES

RHOLUCK SERVICES objectives are simply to:

- make our clients work environment-friendly while complying with Government Occupational Health, Safety and Environmental Laws/Legislations;
- assess the workplace hazards to achieve zero incidents; and
- create a sound safety culture in our clients through training/retraining;

In order to achieve the aforementioned objectives, we adopt the following:

- * maintain close management/client contact;
- * conduct intensive risk assessment, Hazard Operability Studies (HAZOPS);

...good safety systems = good business

MANAGEMENT OBJECTIVES

- * incorporate high technological skills and techniques in line with global standards/requirement;
- * protect the client's best interest commensurate with; ethics, value for money and sound profitability through training and re-training of client's personnel;
- * high analytical approaches in handling every facet of client's operations;
- * carry out a comprehensive facility environmental audit report (EAR) of our client's operations to ensure safe operation, care for the environment while achieving good reward for their investment; and

MESSAGE TO OUR CUSTOMERS

Business succeeds because of the individual behaviour of the employer and the employees towards managing health, safety and environment in their workplace.

Over the years, RHOLUCK has seen how improved Occupational Health, Safety and Environmental culture (including preventing injuries, saving lives and enabling a more productive workforce and more productive plants) enhance a company's bottom line. That is because when resources are more efficiently used, production and company operations run more efficiently with enhanced profitability. All of these factors demonstrate the key truth that "Safety Excellence means Business Excellence". No company can excel until it makes safety a way of doing business.

The annual cost of injuries and incidents is significant. Some costs are clearly visible. In the past, Business

...good safety systems = good business

Message To Our Customer

succeeds because of the individual behaviour of the employer and the employees towards managing health, safety and environment in their workplace.

Over the years, RHOLUCK has seen how improved Occupational Health, Safety and Environmental culture (including preventing injuries, saving lives and enabling a more productive workforce and more productive plants) enhance the company's bottom line. That is because when resources are more efficiently used, production and company operations run more efficiently with enhance profitability. All of these factors demonstrate the key truth that "Safety Excellence means Business Excellence". No company can excel until it makes safety a way of doing business.

The annual cost of injuries and incidents is significant. Some costs are clearly visible. In the past experiences have shown that every year witnessed cases of fire incidents and accidents which have led to loss of lives, property damage, and huge financial loss to the investors leading to business discontinuity. These costs can be multiplied again when one considers the cost to repair and replace damaged equipment and the opportunity cost of foregone production resulting from an unexpected disruption of operations. Often, many of these indirect costs are treated as hidden costs and as such represent a significant burden on the "bottom line" of many organizations.

As a company with a global consulting business portfolio focusing on Workplace Safety and Operational Excellence, RHOLUCK SERVICES is well positioned to observe macro-trends that are changing the business environment. Increasingly, RHOLUCK SERVICES regards safety and operational excellence as top priorities for growth-oriented companies around the world. RHOLUCK SERVICES observed many companies continued to struggle with profitability and sustainability while experiencing avoidable injuries to people and damage to equipment and assets, until our timely safety intervention.

As our world becomes more connected and competitive, and as societal expectations of employers and contractors continue to rise around the world, RHOLUCK SERVICES expects the trend towards safety and operational excellence to continue well into the foreseeable future. This trend will be fuelled as more and more companies realize that in the long term, business excellence and safety excellence are closely related and not in conflict.

Embracing a safety culture is hard work. Unlike driving other business parameters, champions of Occupational Health, Safety may face the added challenge of having to help the workforce see safety performance as having the same level of importance as production, cost or schedule. Reaching the goal of zero accident will occur only when all stakeholders are pulled together by a common purpose or vision. The common goal for both employees and contractors in all industries is the wellness and safety of all workers. Significant differences can be made by embracing Occupational Health and Safety leadership as a strategic business value. In the conduct of business in a global economy, safety is not optional.

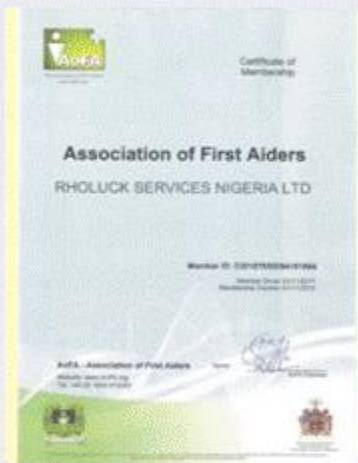

RHOLUCK SERVICES was incorporated because of the stiff challenges in Occupational Health, Safety and Environmental Management in our industries; to render quality Occupational Health, Safety and Environmental Consultancy services and trainings to your workforce. RHOLUCK SERVICES is the choice you cannot afford to neglect. Let us build your Occupational Health Safety and Environmental Management

Thank you.

CEO/MD
Rholuck Services Nigeria Ltd.

Professional Certification

...good safety systems = good business

Our Health, Safety & Environmental Policies

Occupational Health Policy:

The Management of RHOLUCK SERVICES NIG. LTD. ensures that every employee or subcontractor is committed to the planning and execution of all operations to eliminate personal injury. There are minimum Health Management Standards (MHMS) that all employees and our subcontractors shall comply with before deployment to site for any operation.

The following are the aims of the health policy:

- All employees undergo occupational pre-employment medical examination.
- Pursue the goal of "No-Harm Target".
- Elimination of the illicit use of legal drugs or the use, possession, distribution or sale of illegal drugs at company or work locations.
- Protect the work environment from contamination.
- Ensure daily cleaning of the surroundings.
- Prohibition of self medication.

Chief Executive Officer
For: Rholuck Services Nig. Ltd.

Safety Policy:

It is RHOLUCK SERVICES NIG. LTD. policy to carry out its activities in such a manner that no fatality or serious injury or damage to property arises there from. Throughout the execution of our operations, we shall comply with all Government Legislations. No part of our operations is so important or of such priority that it cannot be performed with safe, efficient work methods and equipment.

Rholuck Services safety objectives are simply:

- Zero Fatalities.
- Protect and maintain equipment to achieve LTI free operations.
- To show leadership in the field of Safety Management.
- Play a leading role in promoting best practice in the industry.
- Maintain cordial relationship with host communities.

To achieve these objectives, the following must be observed:

- Compliance with company's safety rules and regulations governing right driving.
- Conduct a comprehensive risk assessment of all our operations.
- Training and retraining of staff.
- Provision and use of personal protective equipment (PPEs).
- Any work being done must be suspended if the employee believes that it cannot be carried out in accordance with HSE policy.

Chief Executive Officer
For: Rholuck Services Nig. Ltd.

Environmental Protection Policy:

Environmental awareness is growing steadily by leaps and bounds so also are litigations that arise from them. Environmental incidents of a large magnitude know no bounds and can therefore affect people, bodies of water and Eco-system. It is therefore Management's intention to critically review the environmental impacts of any operation before actual work is carried out. To this end, all wastes are to be identified according to their nature and degree of harm to the environment. Materials having dangerous environmental consequences are eliminated where practicable or substituted. Wastes are to be minimized and segregated at source and stored in the appropriate waste bin with the standard colour codes.

To this end, this policy shall encompass the following:

- Improve compliance with environmental regulations.
- Support and be guided by all the Federal and State Government programmes aimed at protecting the environment in Nigeria and abide by all existing laws and regulations relevant to environmental sanitation and protection.
- Keep its workforce, clients and contractors and the inhabitants in its immediate operational environment adequately informed of known potential hazards that may affect and make them aware of what is being done or should be done to:
 - * Minimize risk.
 - * Preserve the work environment.

Chief Executive Officer
For: Rholuck Service Nig. Ltd.

Environmental Objectives:

RHOLUCK SERVICES NIG. LTD. has good Environmental protection policy. The company is committed to ensuring clean and healthy environment, especially in the course of our operations. It is our policy that our work environment should be safeguarded from all forms of environmental hazards, like pollution and other actions of the workers capable of tampering with the ecosystem.

Hence, it is our duty not only to maintain a clean, safe, healthy and environment friendly operation, but also we shall ensure that:

- No damage is done to the environment.
- All work locations/sites are reinstated to their original form before final demobilization.
- We discourage every activity capable of tampering with the environment.
- All wastes are disposed of by conventional methods.
- Areas of environmental hazards be sealed, condoned off and protected for the safety of the workers and those that might be affected.
- Ensure compliance with environmental legislations and standards.

Environmental Impact Assessment (EIA)

Environmental Impact Assessment (EIA) may be defined as a formal process used to predict the environmental consequences of any development project. EIA thus ensures that the potential problems are foreseen and addressed at an early stage in the projects planning and Environmental design. The Federal Government of Nigeria enacted the Environmental impact Assessment (EIA) Decree No. 86 of 1992. By conducting EIA both environmental and economic benefits can be achieved, such as reduced cost and time of project implementation and design, avoided treatment/clean-up costs and impacts of laws and regulations. Rholuck Services Nig. Ltd. is an accredited environmental consultant to conduct Environmental Impact Assessment.

Rholuck Services is accredited by Federal Ministry of Environment (FMEnv) Abuja, Lagos State Environmental Protection Agency (LASEPA), Ogun State Environmental Protection Agency (OG EPA), Department of Petroleum Resources (DPR), Nigerian Petroleum Exchange (NIPEX) etc. to render Environment Consultancy Services.

Call us for all your Environmental Impact Assessment

Environmental Consultancy Services

Environmental Auditing and Report (EAR)/Environmental Assessment (EA)

Environmental Assessment (EA), Environmental Impact Assessment (EIA) and Environmental Audit and Report (EAR) are veritable management tools used to assess Company's compliance with Federal and State Environmental Regulations as well as the Company's environment policy. It also assesses the potential environmental risks that are likely to be caused by the operations of a company as well as evaluating the effectiveness of the Company's environmental management systems in place to implement the environmental policy and meeting the regulatory demands of Federal and State Environmental Agencies. RHOLUCK is an accredited Environmental Consultants rendering services to every sector of the economy.

Objectives of the Environmental Audit and Report:

The objectives of the Environmental Auditing are to ascertain whether:

- The Safety, Health and Environmental policies and procedures are clearly defined and responsibilities of individual staff are clearly spelt out.
- The potential liabilities resulting from the company's environmental performances are recognized in good time and controlled effectively.
- The human and material resources for dealing with environmental issues are appropriate and are effectively applied.
- The existing environmental pollution abatement facilities are adequate and cost effective.
- The company's arrangements for the environment, safety, healthcare, sanitation, waste disposal, and the production efficiency of the plant are adequate.
- The factory's operations are in compliance with its environmental policy and meet up the requirements of local laws, regulations, permits and self imposed standards.

The Environmental Regulatory Agencies demand that all companies carry out Environmental Auditing and Report (EAR) of their operations according to National Environmental Standard, Regulation and Enforcement Agency (NESREA) Act 2007. Different environmental laws have been promulgated among which is the Environmental Impact Assessment (EIA).

QUALITY POLICY

The Management of Rholuck Services amongst other policies holds quality with high esteem and shall ensure that services are rendered in line with acceptable standards and in compliance with client's requirements. All collected field samples shall be kept in such a way that their original conditions and constituents are not tampered with. High quality products are supplied to clients.

Our Quality Policies

Objectives of this policy are:

- Customer satisfaction.
- Performance improvement.

This policy shall be upheld by every employee through the principle of "Do It Right First Time" (DIRFT).

Chief Executive Officer
For: Rholuck Services Nig. Ltd.

Quality Assurance and Quality Control (QA/QC)

Quality Assurance and Quality Control (QA/QC) is a tool Rholuck uses to meet our clients business needs. It is doing our services right the first time and at all time. Quality management cannot be separated from Rholuck Services; we ensure all the services we render are compliant with statutory requirement and technical specification.

Quality Assurance requires us to:

- Know what to do.
- Know how to do it.
- Be able to do it.
- Know if it is done correctly.
- Be able to effect it.
- Record it.
- When to do it.

Non-Conforming Product/ Service Procedure

Rholuck supplies and renders high quality, durable and cost effective products and services. If a non-conforming product is identified, it is quarantined, labeled as non-conforming.

OUR QUALITY ASSURANCE ENTAILS PLANNING AND SPECIFYING WHAT TO DO, DO WHAT WE PLAN AND ENSURE THAT WE DO IT RIGHT

Drugs and Alcohol Policy Statement:

It is the company's policy to ensure that employees and business associates are aware of the dangers inherent in the abuse of drugs and alcohol. To achieve this, the company wishes to establish the following:

- * Educate employees on how drugs or alcohol can impair their judgment, affect their performance or even lead to unsafe acts.
- * Ban the use, sale or distribution of drugs in the company premises.
- * Employees could be called upon to undergo test.
- * Encourage employees that are addicted to go for medical treatment.

The Management of Rholuck Services Nigeria Ltd. therefore encourages all staff/third party to desist from any drug/acts capable of destroying him and the company.

Chief Executive Officer
For: Rholuck Services Nig. Ltd.

...good safety systems = good business

OUR CHEMICAL LABORATORY SERVICES

Rholuck Services renders series of laboratory analysis to oil and gas sectors, Aviation, Manufacturing and Governmental Agencies. We are accredited by Department of Petroleum Resources to conduct analysis on petroleum products material safety etc.

Our Laboratory Services:

- Collection of Samples
- Effluent Monitoring
- Water Analysis
- Collection and Analysis of Drill Cuts
- Crude Oil Compositional Analysis
- Gas Sampling and Air Quality Monitoring.
- Bioremediation of Impacted Environment/Site Cleanup.

Benefits of our Services:

Our services afford our clients the following:

- Competent workforce with little or no supervision.
- Operating environment – friendly.
- Elimination of downtime
- Rework is forestalled.
- Our clients learn new ways of managing their environment while embarking on their operation.
- Improved return on investment.

OUR PROJECT MANAGEMENT APPROACH

Rholuck Services operates teamwork approach; “Together we do it better”. We are proactive in target setting. We employ the Plan, Do, Check and Review (PDCR) principle in rendering our services, because we know that PROPER PLANNING PREVENTS POOR PERFORMANCE. The bedrock upon which we render our services is “OUR CLIENT'S JOY IS OUR PRIDE”.

Document Control:

Project document is the project itself. Document management is a very critical aspect of our services as the documents are highly confidential solely for the use of those concerned. No unauthorized person(s) is permitted to have an access to any of the document applicable to the services rendered. We have a Document Management System (DMS) to track all document both in and out. This is managed by a competent document controller. The Document controller ensures that every document (Hard and Soft copies) is stored safely, securely and in a retrievable manner for future reference.

OUR SERVICES

Rholuck Services renders the following services:

- Conduct and preparation of Environmental Audit and Report (EAR) of companies.
- Conduct of Environmental Impact Assessment (EIA), Environmental/Baseline Studies & Environmental Analysis, Oil Spill Response/Clean up and Bio-remediation .
- Health, Safety and Environment (HSE) Training.
- General Health, Safety and Environmental consultancy services.
- Installations of Firefighting equipment (Fire Alarm, FM 200 and Fire Hydrant System).
- Conduct of hazards and operability studies (HAZOPS).
- Monthly industrial Wastes/Effluent monitoring and analysis.
- Sales of quality safety kits such as Overall, Safety boots, First Aid boxes etc.
- Supply of Safety Videos.
- Analysis of petroleum products
- Material Safety Investigation.
- Supply of Drilling Chemicals etc

SUPPLY AND INSTALLATION SERVICES

We supply and install the following safety kits/fire fighting and fire suppression equipment.

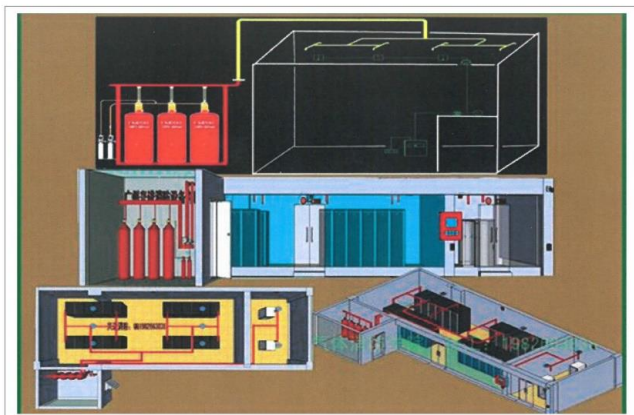

- Fire Extinguishers
- FM 200 Fire Suppression System
- Fire Alarm Systems,
- Fire Hydrant Systems
- High Quality Safety Boots
- First Aid Boxes

FIRE SAFETY

FIRE SUPPRESSION AGENT - FM 200

Once a fire has been detected, it must be suppressed quickly in order to minimize the damage caused to your business. Several seconds could be the difference between a minor inconvenience and a business-destroying catastrophic fire. This is why RHOLUCK recommends the use of FM-200 Waterless Fire Protection Systems to protect your critical assets.

Four Reasons to Choose FM-200

1. Rapid Extinguishment

FM-200 system discharge in 10 seconds or less and will stop ordinary combustibles, electrical and flammable liquid fires before they cause significant damage. This is the most rapid protection available. Rapid extinguishment means less damage and lower repair costs – less disruption to your business.

2. No Collateral Damage

You want to avoid damage, not cause it. You want to reduce downtime, not lengthen it. FM-200® is a clean agent. It doesn't leave behind any residues so it won't cause collateral damage to the property or equipment you seek to protect. FM-200® - waterless fire protection.

3. Safe For People

The safety of you and your employees is the highest priority. That is why FM-200® is the wise choice. FM-200® does not deplete oxygen levels so it is safe for use in occupied areas. In fact, FM-200® is so safe that the same chemical is used as a propellant in medical inhalers, such as those used to dispense asthma medication.

4. Compact Storage

FM-200® systems take up less storage space than most other fire extinguishing agents. In fact FM-200® system can take up to seven times less storage space than systems using carbon dioxide or inert gas

FM-200 Applications

Because it is a safe, clean, odourless gas, It is ideally suited to protect:

1. Electrical switch rooms/control room
2. IT systems (Server rooms)
3. Telecom equipments
4. Petrochemical facilities
5. Museum
6. Hospital
7. Computer rooms
8. Storage Room
9. Bank Vaults

OUR TRAINING PROGRAMMES (External and In-Plant)

FORKLIFT TRAINING (BEGINNERS/EXPERIENCED OPERATORS)

RHOLUCK SERVICES NIGERIA LTD. has developed an operational site where those who want to learn how to operate forklift and crane are trained. Experienced operators also undergo re-training process. At the end of the training period, the participants are issued with certificates.

RHOLUCK FORKLIFT SERVICES.

- * We train and supply trained operators to companies.
 - * Rholuck Services Nig. Ltd. also run the forklift training in the client's premises.
- For all your request on forklift contact us.

TOWER CLIMBING SAFETY COURSE

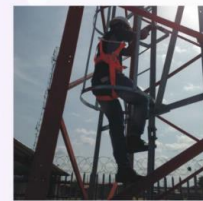

Recently, there have been 'work - at - a height' and tower climbing related industrial incidents leading to loss of lives, disabilities, property damage and even dent on the image of companies. These occurrences would have been forestalled through the right safety training. Working at a height is a very hazardous operation requiring personnel competence, and the right training, the use of the relevant protective equipment and compliance with safety regulations. Rholuck Services Nigeria Ltd conducts comprehensive and intensive practical on tower climbing safety course both in the oil and gas sectors, telecoms, marine, construction industries etc. You can register for the course by sending emails, calls and sms. We will be glad to talk with you.

Dear Sir,

VALUE ADDED TAX (VAT) ACT 102 OF 1993
REGISTRATION OF VATABLE PERSONS
IDENTIFICATION NUMBER.

Further to your submission of Registration Form 001 for the above, please be informed that your Identification Number as a collecting agent is **TIN 09705185-0001**. Please quote this number in all your correspondences with this office and also on your Sales Invoices. The notice is not a certificate. It is given provisionally pending the issuance of a certificate of registration.

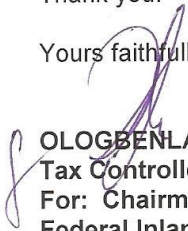

You are therefore under an obligation to file monthly returns to this office in accordance with the provisions of Section 12(1) of this Act. For the avoidance of doubt, VAT returns are to be rendered on or before the 21st day following the month of transaction.

Offences ranging from furnishing of false information/document. Evasion of VAT, unmodified change of address, failure to keep proper records and accounts, failure to collect VAT, failure to remit the VAT collected, failure to file monthly returns, on or before the due date attract various penalties as stated in the Act. Endeavour to avoid them.

I congratulate you on your registration and wish you successful business in the year ahead.

Thank you.

Yours faithfully,

OLOGBENLA, P
